

WORLD DAY OF PEACE JANUARY 2024
“ARTIFICIAL INTELLIGENCE AND PEACE”

<https://www.youtube.com/watch?v=NbEbs6I3eLw>

“It is my prayer at the start of the New Year that the rapid development of forms of Artificial Intelligence will not increase cases of inequality and injustice all too present in today’s world but will help put an end to wars and conflicts and alleviate many forms of suffering that afflict our human family.

May Christian believers, followers of various religions and men and women of good will work together in harmony to embrace the opportunities and confront the challenges posed by the digital revolution and thus hand on to future generations a world of greater solidarity, justice, and peace.”

With these words, with this prayer, Pope Francis concludes his Message for the 57th World Day of Peace January 2024.

According to statement of the Vatican’s Dicastery for Promoting Integral Human Development 2 August 2023, Our Holy Father sees ‘the urgent need’ for dialogue and conversation ‘to guide the development and use of artificial intelligence in a responsible way...’. This requires that ‘ethical reflection be extended to the sphere of education and law’, so that, artificial intelligence can ‘serve the promotion of justice and peace in the world’.
